The actual amount will vary depending on how often the fund manager buys and sells.

Fund concept

The Kathrein Mandatum 100 is an internationally mixed umbrella fund with a risk profile that is 100% equity. A part of the share quota is covered by alternative investments such as private equity or hedge funds. Stock selection is based on quantitative models, the scientific methods of which are based on the analysis of key figures, price developments and profit estimates. Kathrein Privatbank complements this with active currency management. The fund offers a broadly diversified portfolio of global equities. Kathrein Privatbank recommends an investment horizon of at least five years due to the higher proportion of equities.

*The Sharpe ratio compares the additional return and risk of an investment with a safe (risk-free) money market investment, taking into account the volatility of the respective portfolio.

Past performance is not a reliable indicator of future performance and returns of the fund. The performance is calculated in accordance with the OeKB method and already takes into account management fees, any performance-related fee and other costs charged within the fund. Individual costs such as the subscription fee, redemption fee or taxes such as withholding tax are not included in the performance calculation. The specific, individual amounts of these are not known and, if taken into account, would have a correspondingly negative impact on performance. If an purchase fee of 3% is charged, this reduces the performance in the year of purchase by EUR 300 for every EUR 10,000 invested. Note for investors with a home currency other than the fund currency: We would like to point out that the return may rise or fall as a result of currency fluctuations.

Fund notice

The fund currency of the fund is EUR. The fund regulations of Kathrein Mandatum 100 have been approved by the Financial Market Authority. Kathrein Mandatum 100 may invest more than 35% of the fund's assets in securities or money market instruments issued or guaranteed by Austria, Germany, Belgium, Finland, France or the Netherlands via individual securities investments and/or via investments in other investment funds, whereby the investment in one and the same issue may not exceed 30% of the fund's assets. The management company may enter into transactions with derivatives for Kathrein Mandatum 100 as part of the investment strategy. This may at least temporarily increase the risk of loss in relation to assets held in the fund. Derivative instruments that are not used for hedging purposes may be acquired. In this context, investments may also be made predominantly (in relation to the associated risk) in derivatives, whereby the risk amount for the market risk (relative VaR) defined for all fund investments at twice the total risk of the reference portfolio must be complied with. The management company invests for Kathrein Mandatum 100 mainly in other investment funds. Target funds domiciled in Austria, in all other contracting states of the European Economic Area, in the USA, Guernsey and Switzerland as well as in other states with, in the opinion of the FMA, equivalent supervision may be selected in compliance with the legal requirements (§ 71 para. 2 InvFG). The management company may invest up to 10% of the investment strategy of Kathrein Mandatum 100 in investments pursuant to § 166 para. 1 no. 3 InvFG (alternative investments), which entail an increased investment risk compared to traditional investments. In particular, these investments may result in a loss or even a total loss of the capital invested in them. With regard to the domicile of the target funds, there are no restrictions within the framework of the legal requirements. Due to the composition of the fund or the management techniques used, the fund exhibits increased volatility, i.e. the unit values are exposed to large upward and downward fluctuations even within short periods of time, and capital losses cannot be ruled out.
