Fund concept

The Kathrein Sustainable Global Equity is a global equity fund that is broadly diversified across countries, currencies and sectors. The investment universe includes developed countries and the focus is on strongly capitalised companies.

It is invested in around 180 different stocks. The management approach is based on a quantitative optimisation process. This includes the use of an in-house model to exclude the riskiest companies within the investment universe. The use of derivatives or securities lending is excluded.

The fund is a sustainable fund within Article 8 of Regulation (EU) No. 2019/2088. Social, ethical and environmental characteristics are promoted in the fund. Exclusion and quality criteria (negative and positive criteria) are considered in the selection process. However, no sustainable investments within the scope of the EU taxonomy are targeted or sustainable investment objectives are pursued. Details on the carbon footprint and the ESG concept as well as the prospectus can be found on our website www.kathrein.at.

The fund has been awarded the Austrian Eco-label and the FNG seal.

*The Sharpe ratio compares the additional return and risk of an investment with a safe (risk-free) money market investment, taking into account the volatility of the respective portfolio.

Past performance is not a reliable indicator of future performance and returns of the fund. The performance is calculated in accordance with the OeKB method and already takes into account management fees, any performance-related fee and other costs charged within the fund. Individual costs such as the subscription fee, redemption fee or taxes such as withholding tax are not included in the performance calculation. The specific, individual amounts of these are not known and, if taken into account, would have a correspondingly negative impact on performance. If a purchase fee of 3% is charged, this reduces the performance in the year of purchase by EUR 300 for every EUR 10,000 invested. Note for investors with a home currency other than the fund currency: We would like to point out that the return may rise or fall as a result of currency fluctuations.

Fund notice

According to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector, the investment fund classifies as an Investment Fund within the meaning of Article 8.

For a detailed description of the environmental and/or social characteristics of the investment fund (sustainability / ESG investment approach) as well as the sustainability risks please visit www.masterinvest.at, access the FUND SELECTOR (Fondsselektor), filter by Sustainability (Nachhaltigkeit), and click on the respective fund, or go to www.kcm.at.

Due to the use of investment instruments satisfying the eligibility requirements set forth in the fund regulations, the fund experiences a higher level of volatility. This means that the share value can be exposed to significant upward and downward movements even within a short timeframe.

Derivative instruments are neither used as part of the investment strategy nor for hedging purposes.
